 RE: 2008-09/2009-10 Football Classification

The following is a list of Football Playing Schools that will be used for district alignments for the 2008-09/2009-10 school years. The classifications are based on the enrollment numbers your school submitted to the state Department of Education at the end of the 2006-07 school year. If you have questions about the classifications, please call me at the office. The new districts will be established at the OSSAA Board of Directors meeting in August.
